There are other varieties of shade and ornamental trees, shrubs, and evergreens that are available in limited quantities and sizes. We shall be pleased to answer all inquiries regarding plants not listed.

For customers with smaller landscape requirements and those who prefer to select their plant material, we offer (in season) a well rounded selection of evergreens in our 3 large shade houses. We shall be pleased to have you visit us and see the type of material that we have to offer.

We grow ornamentals only and exclusively for the wholesale trade. Therefore, we can concentrate our efforts in producing the best possible grades of hardy landscape material at a reasonable price.
